○ For Prostep Lumicious, mixing ratio of Color Cream : Developer = 1 : 1, except for Lv 12, Color Cream : Developer = 1 : 2.

□ The actual coloring results will slightly vary depending on the color of hair before coloring. Color presented on printed material may differ from actual color.

□ Image of 100% white hair colored for 30 minutes. ■ Precautions for use ○ Carefully read the precautions when using hair color and bleaching products. ○ Don't use if you have experienced hair color allergy. ○ Make sure to have a skin allergy test every time before using hair color.
